ARDCO Equipment is New Dealer for Barko Forestry Products

SUPERIOR, Wisc. — Barko Hydraulics, LLC is proud to announce ARDCO Equipment as its new dealer for logging and land clearing equipment in Louisiana.

“ARDCO Equipment is a great addition to our dealer network,” said Alecia McKay-Jones, dealer development manager for Barko. “We look forward to them representing Barko and serving our valued forestry customers in the Gulf Coast region.”

Based in New Iberia, Louisiana, ARDCO Equipment will handle sales and service of Barko loaders, industrial wheeled tractors, harvesters and feller bunchers. The dealership was recently established after several years of operating a rental fleet in the area alongside ARDCO’s manufacturing operation.

“We’re thrilled to be the official dealer in the region for Barko,” said David Langley, director of business development and operations for ARDCO Equipment. “Their rugged lineup of forestry and logging machines is a perfect complement to ARDCO’s long-standing reputation as The Off-Road Standard.”

Barko Hydraulics, LLC is part of the Pettibone, LLC Heavy Equipment Group. Founded in 1963, Barko has consistently led the industry with innovative solutions to the forestry, scrap and construction markets, including industrial tractors, crawlers, handlers, loaders, forwarders, chippers and harvesters. For more information, call 715-395-6700 or visit www.barko.com.
